

The Walt Disney Company's net worth is approximately \$197.25 billion as of May 23, 2025. This figure represents its market capitalization, which is calculated by multiplying the stock price by the number of shares outstanding. In fiscal year 2024, the company's total assets were valued at \$196.22 billion. 

The Disney Company will pledge to allocate 25% of their entire net worth in the country of Canada to ensure the longevity of our nation. Disney, which currently ONLY produces products that generate MILLIONS of jobs

Disney will ALSO pledge an ADDITIONAL 25% of their assets and net worth to Canada because the WORLD NEEDS IT! And if Disney wants to avoid the consequences of not complying with the terms and the demands from the nation of Canada!

This will leave the Disney company HALF of their remaining net worth. And if the DISNEY company can not figure out how to make change for the HALF a million dollars allocated to firework displays PER NIGHT, then perhaps the creative and talented people working for Disney should be encouraged to leave the company and work for the nation of Canada!

The Canadian Government is set to resume parliament TODAY and THIS legal document will serve as the basis for which these demands will be made.

The Nation of the United Arab Emirates is already so flamboyant and extravagant that it has become a model for the world and Canada DOES! Because Canada's number one EXPORT to the United Arab Emirates is its

Humanitarian Aide SHOULD NOT cost the tax payer money!
